# THE NEXT GENERATION, XERO-SPACE - FLEXIBLE OUTLET PATCH SOLUTION

Product Overview

At X Space we know the importance of optimising co-location space and therefore the successful management of a large number of cables is crucial when addressing these issues. To address this demand for efficiency X Space have designed a flexible outlet patching systems to accept a full array of modular outlets, Ideal for a wireless access points and simplifies cable routing complexity,

Key Benefits

- Utilises and enhances the free space on Steel Wire Cable Tray
- Cable bend radius uncompromised during installation
- Speed of installation
- "Plug & Play" solution allows for flexibility and ease of moves, adds and changes
- Suitable for mounting upside down - Ideal for Co-location environments
- Maximum air flow ventilation
- Defined demarkation point between infrastructure and patching field outside the cabinet

Mounting Option

Steel Wire Cable Tray,

TO SUIT:

Marco 100mm w
Cablofil 100mm w

Dimensions and Product Specification

Description	Product Code	Dimensions mm	Module Type	Apertures
Single Gang	P1G002	115W x 30H x 120L	Modular	2

Technical Drawings

Material: 1.2mm Zintec Steel
Finish: Powder Coated – Colour Black
Panel Weight: 0.3Kg
Drawing No: 1SGWFM 10000015
