

Trident UK Line Adapters

Key Features

- BT recommended PABX version

Category: Voice Cabling

Part No: 000190

PSTN Master:	TRI-000187
PABX Master:	TRI-700193
Secondary Line:	TRI-000193

General Description:

Our voice adapters convert RJ45 sockets to an LJU presentation to allow telephones and modems to be connected to structured cabling systems.

Due to broadband interference issues with the PSTN surge arrestor, British Telecom recommend the use of PABX voice modules, line jacks and line adapters for the UK. To accommodate that our PABX line adapters have the 'out of service' resistor inside.

Specification:

Body Dimensions:	PSTN:	22.2 x 52.0 x 25.8mm
	PABX:	22.2 x 52.0 x 25.8mm
	Secondary:	22.2 x 52.0 x 25.8mm
