Trident RJ11/12 Snap-In Modules

Key Features

- Our RJ11 modules are shuttered
- Designed to fit standard Euro sized faceplates
- Slip style label facility for port identification

Category: Voice Cabling	Part No: 000190

General Description:

These high-quality euro sized low profile (20mm) UK RJ11 voice modules have been designed specifically to fit the standard euro sized faceplates. The integral cable tie point does not obstruct cable termination and comes with the cable tie required, and are designed for easy port identification with slip-in style label facility.
