

Cassette, M4, LC Quad, 1U, 50 LOMF, T2, 24F, 2MPO(M) OR-M4LCQ24-50E

OVERVIEW

Cassette, M4, LC Quad, 1U, 50 LOMF, T2, 24F, 2MTP(M)

FEATURES

- Compact high density design
- Plunger/grommet fasteners
- Front loading
- Fiber port labeling
- Metal housing
- Internal bend radius limiting feature built-in
- Permanently attached insertion loss test data label

BENEFITS

- Optimized space utilization
- Quick and easy insertion and removal
- Easy access to connections
- Provides fiber port identification for easier administration
- Rugged, cost-effective design
- Flexibility for tight system loss budget applications
- Assures superior optical performance
- Test data is always available and not easily lost

Connectorized Info

Fiber Type: 50 LOMF
Max Insertion Loss: 0.75
Max Return Loss: 20

Dimension Info

Rack Units: 1

General Info

Product Series: Momentum 4
Connection Type: MPO
Installation Destination: Fiber Cabinets

Technical Info

Capacity: High Density
Equipment Type: Pre-Terminated Cassettes
Typical Insertion Loss: 0.75
Typical Return Loss: 20
Connection Method: Method A
Fiber Capacity: 24

Eco Information

RoHS Compliant: Yes
