

8-Core Screened Alarm LSF White

Key Features

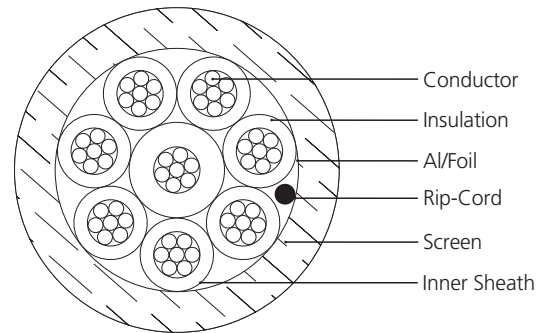

- Low Voltage
- Foil Screen
- LSF Sheath

Coaxial and Specialist Cable

Part No: 000301

General Description:

This 8-core screened cable is a general-purpose Screened Signal and Alarm cable. The cable is ideal for use in alarm installations or where low voltages are used. All our type 3 cable can be identified by the Yellow rip-cord adhering to BS4747-3.30.

Part Numbers

TRI-000301 8 Core Screened LSF Alarm White - 100m

Cable Construction:

Material Breakdown:

Cores		
Conductor	Material	Tinned Copper-Clad Aluminum
	Group O.D. (mm)	0.55*7 + 0.05
	Core Size	0.19*56 + 0.05
Insulation		
	Material	PVC
	Diameter	1.10 (+0.05mm) *7
Jacket		
	External O.D.	5.10mm(+/-0.10mm)
	Outer Material	PVC (complies RoHS)
	Colour	White
Drain-Wire		
	Material	Tinned Copper Clad Aluminum
	Diameter	0.19mm
Inner Sheath Colours	Black, Red, White, Green, Blue, Yellow, Orange	
Sheath	Material	AL-Foil

Electrical Characteristics:

Rated Voltage	300v
Rated Temperature (°C)	-10°C - +7°C
