

*A1 Gel Crimps

Trident Wire Connector 8A 1

Key Features

- Approved and supplied to BT Openreach
- Transparent high clarity housing allowing easy visual inspection
- High quality waterproof gel inside

Category: Voice Cabling

Part No: TRI-000564

General Description:

These are two wire telephone gel crimp IDC connectors suitable for connecting any two telephone conductors internally or externally. Manufactured with a high quality waterproof gel inside the crimp providing a secure seal against water and moisture. The high-performance polypropylene material used for housing offers good chemical resistance and has high tensile strength in a range of high and low working temperatures.

Specification:

Dimensions:	Open: 15.5 x 9.5 x 10mm	
	Closed: 15.5 x 3.6 x 10mm	
Materials:	Housing: Polypropylene	Contacts: Tin-plated brass
Colour:	Transparent housing	
Suitable for Conductors:	Copper: 0.32mm – 0.9mm	Aluminum: up to 0.5mm
