

Wall distribution WCB7

Features

- Robust steel construction
- Available in black or grey
- Width 700mm, depth 300mm and height 780mm (13U) or 920mm (17U)
- Capacity excl. cross-connect 26 Fiber Trays (624 fibers) or 34 Fiber Trays (816 fibers)
- Removable doors and side panels
- C-shaped frame with rear-mounted 19" rails
- Centralised grounding of all panels
- Lockable steel door

Benefits

- Offers medium to high fiber density without valuable floor tile consumption
- Excellent access to incoming and outgoing fibers
- Small footprint (only 300mm deep)
- Suitable for all fiber tray types and applications
- Modular and scalable

All the features and benefits of a LiSA rack fixed to the wall

The WCB7 cabinet is a compact optical distribution frame which can be used either as a splicing point inside the building entry point (BEP) or alternatively as a zone distributor close to equipment racks inside the data center. This dual functionality is only possible because of the wide variety of fiber trays that can be integrated such as pigtail splicing, MTP «plug & play» or M3K cable systems.

The capacity of the WCB7 varies depending on application, however if completely full with MTP fiber trays, the WCB13 has a capacity of 624 and the WCB17 a capacity of 816 LC connections. It is important to note that this cabinet is not supplied with patch cord over-length storage as standard, therefore it may be necessary to add an over-length storage unit to the lower area of the rack if a cross-connect application is required. This will reduce the capacity of the cabinet by at least 4U of space or 8 × fiber trays (192 fibers).

Order code

Description	Descriptive code	Item no.	PU
WCB7, 13U high, black	WCB7-13-F10B0S11-R1C1-WNK1-A22	84084947	1
WCB7, 17U high, black	WCB7-17-F10B0S11-R1C1-WNK1-A22	84084915	1

Order code accessories

Description	Descriptive code	Item no.	PU
Lock module (1 key included)	NGR-LOCK-BACKFITTING-EK333	84085188	1
Spare key EK333	NGR-SPARE-KEY-EK333	84085514	1
Patch cord over-length unit 4U, black	ODR-XU-4U-BK	84086642	1

Note: Tray units and cable fixing plates must be ordered separately (see ODR accessories)
